

A SORADIS PRODUCT

Embrace the AI Revolution In Logistics.

Surface Transport

Air Cargo

Warehouse Operations

THE NEXORA EDGE

QR Code Based Docket Management

Replace traditional barcode systems with QR-based digital dockets that capture rich shipment data instantly through mobile devices. No requirement for barcode scanners.

Offline-First Mobile Application

Operations continue seamlessly even in low-network environments with secure offline data capture and automatic sync.

Live Operational Dashboards

Real-time visibility across surface transport, warehouse, finance, and operations teams with role-based dashboards.

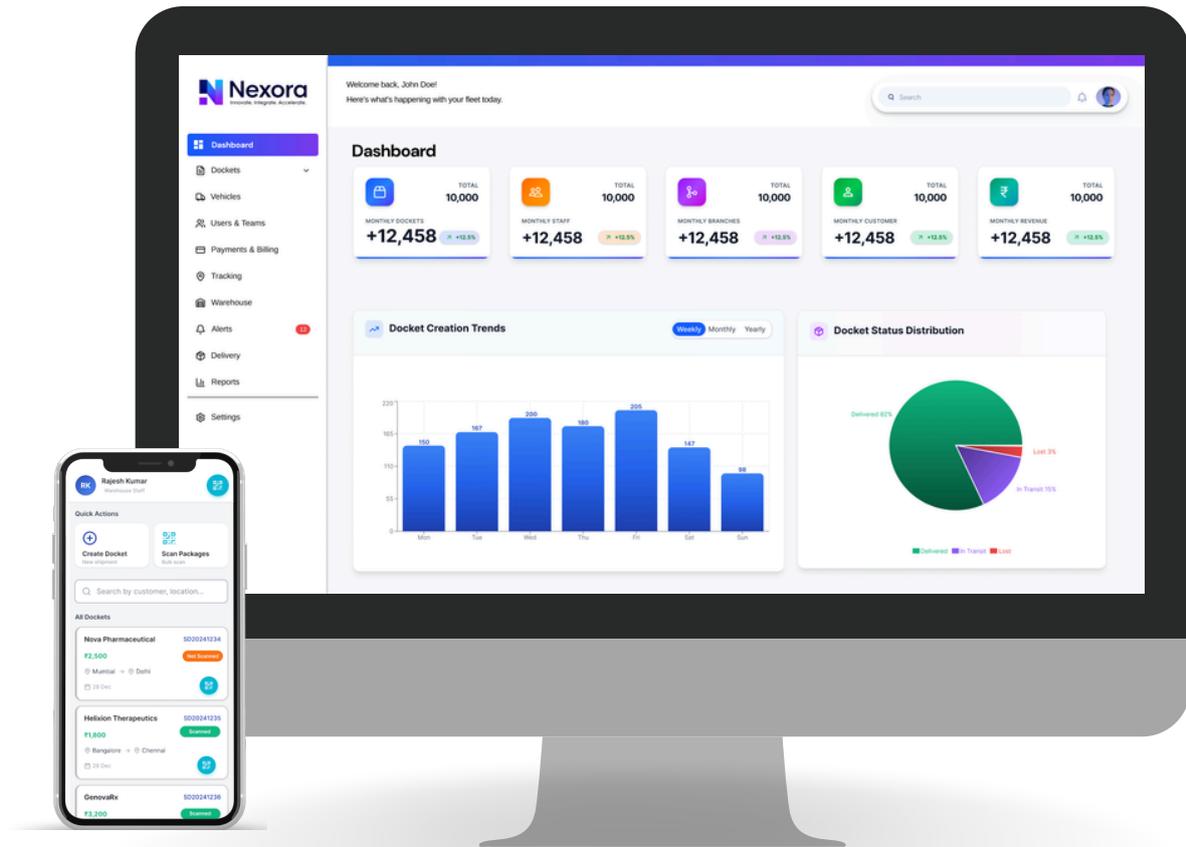

Predictive Analytics

AI-driven insights for route optimization, fleet utilization, and delivery performance forecasting.

NEXORA DASHBOARD & ANALYTICS

THE NEXORA IMPACT

30%

COST REDUCTION

Eliminate inefficiencies, manual processes & data inconsistencies across workflows.

25%

FLEET UTILIZATION

Optimize fleet capacity, route planning & load management using AI-driven insights.

35%

FASTER DELIVERY

Reduce delays caused by planning gaps and fragmented communication.

50%

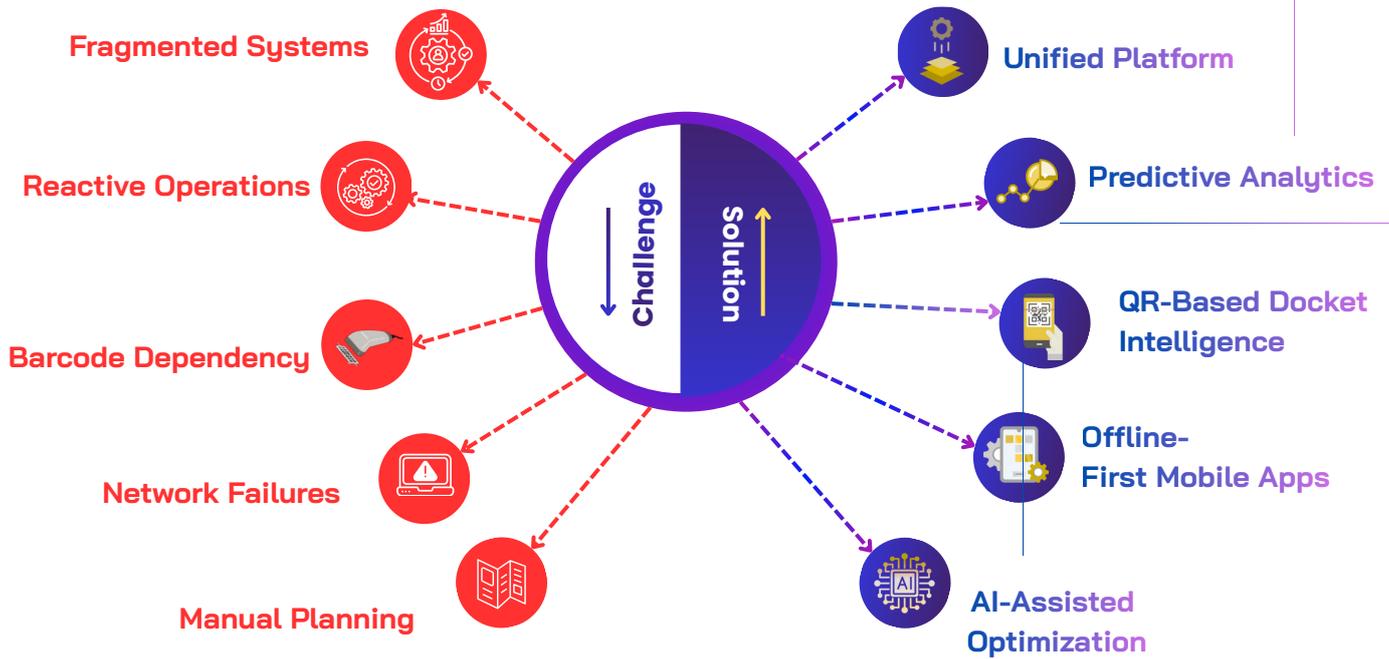

FASTER BILLING

Streamlined billing cycles with automated documentation and digital workflows.

THE NEXORA ECOSYSTEM

NEXORA TURNS COMPLEXITY INTO CLARITY

Simplifying Logistics. Amplifying Lives.
