POWERING THE NEXT GENERATION OF ENTERPRISE OPERATIONS

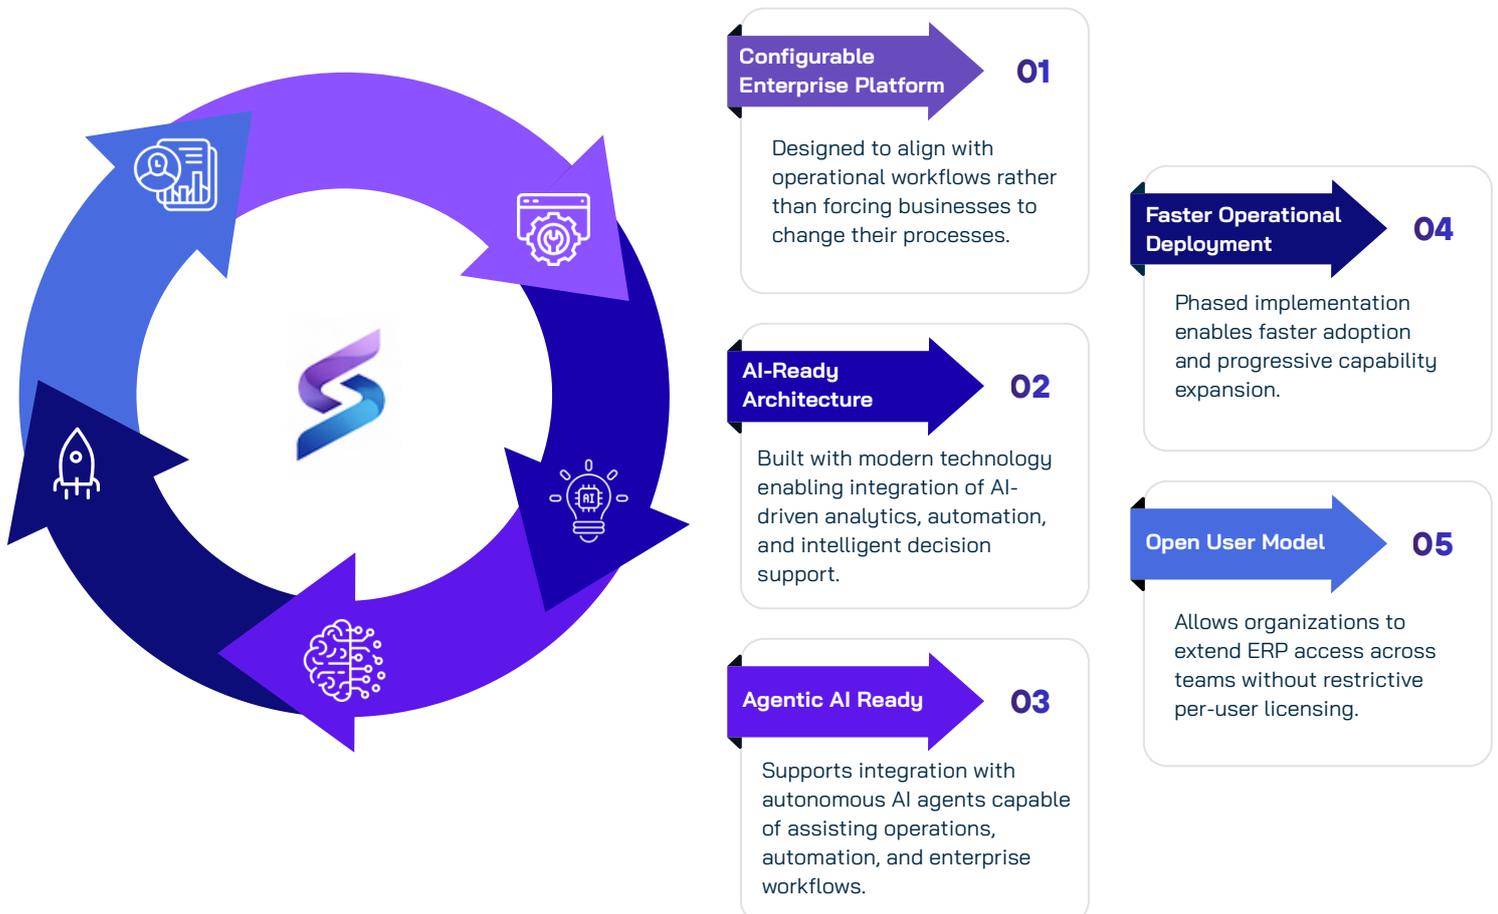

In today's fast-moving business environment, organizations require enterprise systems that are flexible, scalable, and aligned with operational reality.

Soradis ERP enables businesses to unify operations, improve decision-making, and create a strong digital foundation for sustainable growth.

With adaptive architecture, modern technology stacks, AI-ready capabilities, and intelligent automation, Soradis ERP helps organizations transform the way they operate.

SORADIS ERP

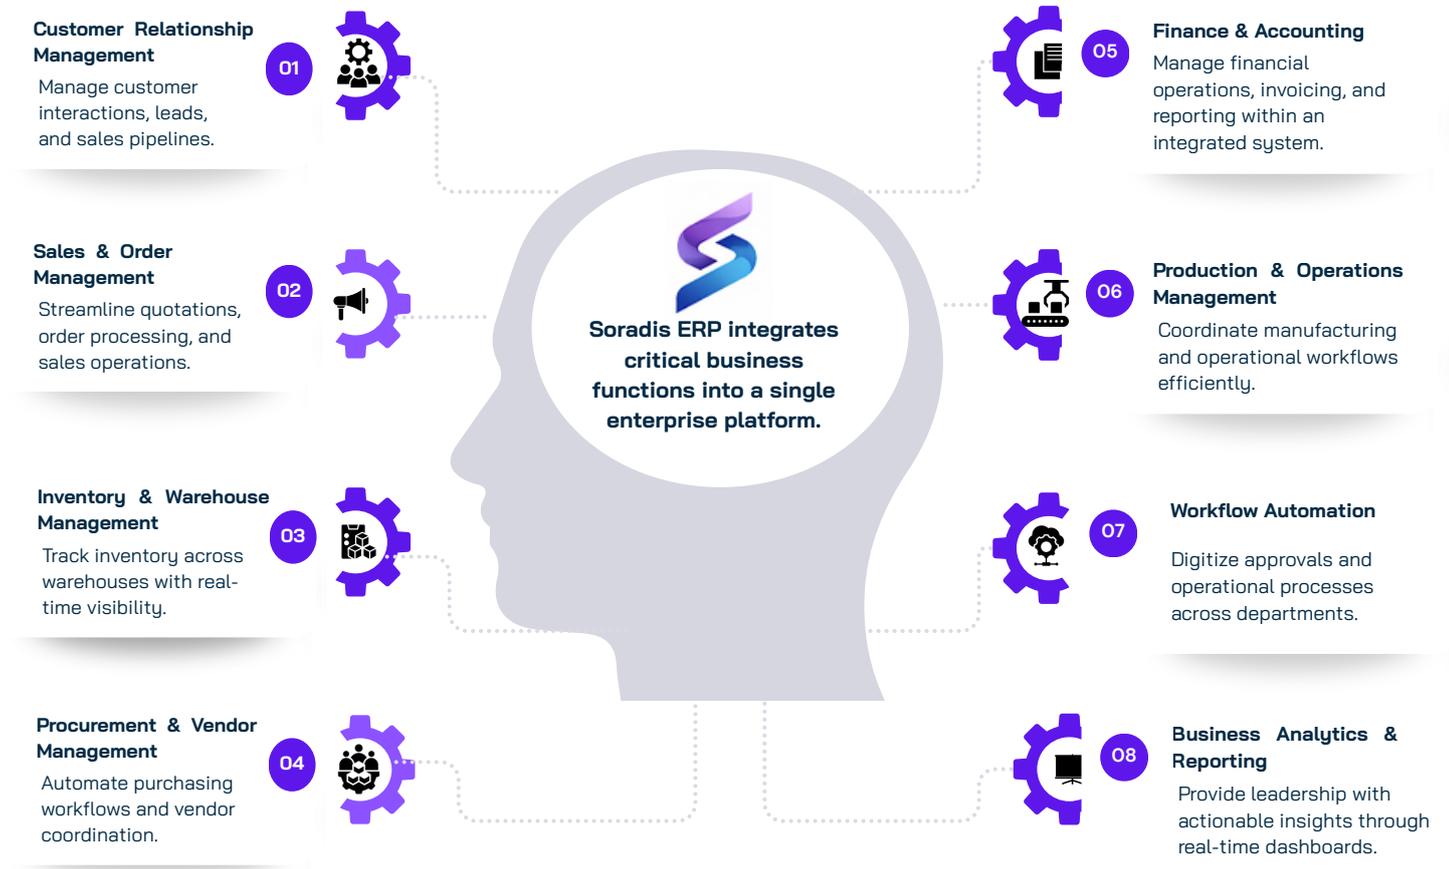

Designed to align with operational workflows rather than forcing businesses to change their processes.

TRADITIONAL ERP VS SORADIS ERP

Traditional ERP	Soradis ERP
✗ Standardizes business processes	✓ Adapts to YOUR business operations.
✗ Businesses adjust to fit software	✓ ERP built around real workflows.
✗ Per-user licensing increases cost	✓ Open user model for wider adoption.
✗ Long, consulting-heavy deployment	✓ Phased implementation, faster ROI.
✗ Complex, expensive customization	✓ Configurable platform built for flexibility.
✗ AI added as expensive add-ons	✓ AI-ready architecture built-in.
✗ Limited automation capabilities	✓ Agentic AI for intelligent automation.

UNIFIED PLATFORM FOR ENTERPRISE OPERATIONS
